

PROJECT TITLE

Employee Performance Analysis using Excel

WHO ARE THE END USERS?

HR business partners, Line Managers, Employees, Senior Leadership, Talent Management Team, Analytics Team, IT Department, Training and Development Team.

RESULTS

MODELLING

Examine relationships between performance metrics and demographic variables. Identify significant predictors of employee performance. Test hypotheses about differences in performance across groups.

Conclusion

The employee performance analysis project aimed to develop a data-driven approach to understanding and improving employee performance.

PROBLEM STATEMENT

- Develop a standardized performance evaluation framework
- Identify key performance indicators (KPIs) and metrics
- Analyze relationships between performance, engagement, and retention.
